Snakes are reptiles. They are dangerous. Snakes are scary. They dont have legs and they have scaly skin. Snakes live in the zoo. They slither with their tummies. They eat bird and goats. Snakes lay eggs then the baby comes out. Snakes have sharp and scary fangs.

Some good descriptive language has been used

Accurate use of punctuation but needs to work on the correct use of singular and plural words

Grade Commentary

Jo has demonstrated sound knowledge and understanding of the content and structure of an information report. The report has been adequately planned and some good descriptive language has been used. Most sentences have been written in present tense and simple connectives have been used to join sentences. An adequate level of competence is evident in the use of grammatical features and strategies for spelling words. Simple punctuation, such as full stops and capital letters, has been accurately used, and the handwriting is of consistent size and slope. To improve, Jo could strengthen the quality of the information, structure the report in paragraphs, and work on correct use of plural and singular words

Jo's response demonstrates characteristics of work typically produced by a student performing at a grade C standard.
